## ***HARDWARE & PNEUMATICS***

Established in the year 1973, we are a Partnership Firm based in Kolkata engaging in trading and supplying a wide assortment of Industrial, Pneumatic, and Hydraulic Products. Our range of products is procured from registered and authentic vendors of the industry. We lay great emphasis on providing high-quality and durable products at affordable prices. To enable that, we handpick our vendors with extreme care, by grading prospective vendors on several parameters before choosing them. Moreover, we provide timely delivery.

Under the supervision and leadership of our mentor, the late “Mr. M.Y. Masalia”, we have carved a niche in this competitive industry due to our long-term experience since our inception. His rich industry experience and vast knowledge and expertise have helped us in achieving our company goals in the best possible manner.

### WHY US

We are always engaged in serving our clients with our qualitative range of products. The range of our products is widely demanded and appreciated by our clients for their smooth finishing, rugged designs, accurate dimensions, longevity, feasible rates and sturdy nature.

### OUR TEAM

We have a team of dedicated and immensely skilled professionals, who assist us in delivering the products sufficiently. All the employees of our firm have a sound knowledge of the industry and the changing trends of the market. We also have a team of skilled and highly qualified quality controllers who check each item for several quality parameters to gain the utmost client satisfaction and ensure the reliability of the products.

### QUALITY ASSURANCE

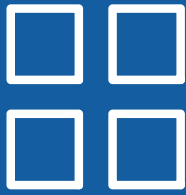

With an aim to render utmost quality products in industry, our quality checkers sternly pass all the products through distinct quality parameters. We have sourced the range of our products from some genuine and authentic vendors of the industry. Our vendors have made these products in adherence with the international quality standards and norms. The parameters on which our products are tested are high performance, durability, functionality, and standard.

### CLIENT SATISFACTION

To meet the various demands and requirements of our clients is the very first priority of our company. With the help of our well equipped and ultramodern infrastructure facilities as well as trained professionals, we are able to cater the various needs of our clients in the best manner. Moreover, we follow ethical business policies and transparent dealings which is essential in maintaining harmonious relations with our clients. This makes us the first choice of the clients.
